Technical Score: The score (0–10) is a weighted sum of signals from RSI, MACD, Bollinger Bands, Moving Averages, Volume, and Analyst Targets. Each bar shows the contribution of a component to the total score.

How each score is computed:

RSI: +2 if oversold (<30), -1 if overbought (>70), 0 otherwise.

MACD: +2 for strong bullish divergence, +1 for weak bullish, -2 for strong bearish, 0 otherwise.

Bollinger Bands: +2 if price is near/below lower band, -2 if above upper band, 0 otherwise.

Moving Averages: +2 if price >2% above 20d MA, -2 if <2% below, +1 if just above, 0 otherwise.

Volume: +1 if volume spike >20% vs previous day, 0 otherwise.

Analyst Targets: Up to +2 for high upside to analyst target (scaled by % upside).
